

**Vista III
Touch Screen**
ON30-2392-00

Offering all the standard features of the Vista III 6231 series, the new Touch Screen, available from Akron Brass, allows you to maximize valuable dashboard space while integrating several items onto this one display. Its compact size also enables the Touch Screen to fit into the EMT action area and combines key elements such as the oxygen monitor and patient status timer. The Vista III Touch Screen allows you to control all of your lighting and HVAC with just four wires: power, ground and communications.

This full color display has a wide temperature range of -40° to 80°, exceeding KKK-A-1822 requirements and runs a unique system developed specifically for the EMS Market.

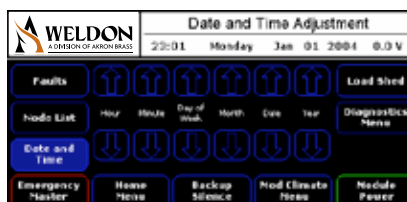

Features:

- Operates in 12V and 24V applications
- Virtual switches and gauges
- Display inside and outside temperature
- Auto climate control
- Re-programmable by the OEM
- Peer to peer network
- On-board diagnostics
- On-board service information
- Colors change to indicate button status
- Visual door indicator
- Patient status alarm
- Video Ready for:
 - Backup camera
 - Thermal camera
 - GPS
 - DVD
