

**Mini16x0 OS Update**  
**Version 1.06**  
**Release Date: 02/09/2009**

**Changes in this update:**

1. Added support for Weldon Vehicle Data Recorder extended Seat Inputs.
  - a. The Weldon Vehicle Data Recorder has support for up to 6 Seat Positions for Occupancy and Belted conditions. The Mini16 has been updated to provide extended seat support for up to 8 more seats.
  - b. The commands within the “Seats” Category contain the commands used by the Mini16 to send seat occupied and seat belted information to the Vehicle Data Recorder.
  - c. These seat commands may not be used on any node other than the Mini16 at this time.
